

ASSESSMENT AND REGISTRATION

To climb unsupervised at the Sportspark all climbers (aged 16+) must attend a short assessment and sign our registration form.

An assessment to the climbing wall costs £10 and this includes your first years registration.

After the first year registration must register annually and the cost of this is £10 per person (no future assessment is required)

Climbing assessment structure

During the climbing assessment, participants will be asked to demonstrate the following:

tying in

putting on your harness

belaying

lowering

The assessment will also include:

a question and answer session and hazard identification

You will also be asked to sign an agreement to confirm that you understand and accept Sportspark's climbing registration terms and conditions.

Once you have passed the assessment, you will be able to climb unsupervised.

If you have not demonstrated the required climbing skills during the assessment, or have not provided satisfactory responses/knowledge during the question and answer session, you will be required to attend one of Sportspark's six week climbing courses or arrange one-to-one climbing tuition, before reassessment can take place.

The climbing instructor will be able to provide you with further details of our courses/ further training opportunities during the induction.
